INDEX OF RATE SCHEDULES

<u>DESIGNATION</u>	<u>DESCRIPTION</u>	<u>SHEET NUMBER</u>
<i>GS</i>	<i>General Service</i>	<i>7.0 - 7.1</i>
<i>GSD</i>	<i>General Service/Demand</i>	<i>8.0 - 8.2</i>
<i>GSDI</i>	<i>General Service/Demand Interruptible</i>	<i>8.6 - 8.8</i>
<i>LGSD</i>	<i>Large General Service/Demand</i>	<i>8.9 - 8.11</i>
<i>RS</i>	<i>Residential Service</i>	<i>9.0 - 9.2</i>
<i>LS</i>	<i>Lighting Service</i>	<i>10.3 - 10.5</i>
<i>CSA</i>	<i>Contract Service Agreement</i>	<i>11.0 - 11.3</i>
<i>PCA</i>	<i>Wholesale Power Cost Adjustment</i>	<i>12.0</i>
	<i>Miscellaneous Charge Amounts</i>	<i>16.0 – 16.02</i>
	<i>Line Extension Charges</i>	<i>16.1 - 16.3</i>
	<i>Net Metering</i>	<i>16.4</i>
	<i>Interconnection Agreement for Customer Owned Renewable Generation Systems</i>	<i>17.0 – 17.4</i>
	<i>Prepaid Metering Rate Schedule</i>	<i>18.0 – 18.1</i>
<i>DS</i>	<i>Idle and Dormant Services</i>	<i>19.0 – 19.1</i>

GENERAL SERVICE - SCHEDULE GS

AVAILABILITY

Available throughout the territory served by the Cooperative in accordance with the Cooperative's Rules and Regulations for Electric Service.

APPLICABILITY

Applicable to any non-residential service for light and power purposes where monthly usage is less than 50 KW Demand and 10,000 KWH, and where the consumer's load does not meet the applicability criteria of Rate Schedule GSD.

CHARACTER AND CONDITIONS OF SERVICE

Single phase or three phase, 60 Hertz, at the Cooperative's standard available voltage. Resale of service or standby service is not permitted hereunder.

CHARGES

Customer Charge

Single Phase	\$1.07 per day
Three Phase	\$1.40 per day
Energy Charge.....	11.52 cents per kWh

MINIMUM MONTHLY CHARGE

The minimum monthly charge for service shall be the daily Customer Charge times the number of days in the billing cycle.

WHOLESALE POWER COST ADJUSTMENT

The monthly charge for energy, stated above, is subject to adjustment according to the Wholesale Power Cost Adjustment Schedule.

TERMS OF PAYMENT

Bills are due and payable by the date shown on the bill. Bills not paid by the date shown on the bill are subject to a late payment fee of 1.5% of the amount of the bill, with a minimum fee of \$5.00.

GENERAL SERVICE DEMAND - RATE SCHEDULE GSD

AVAILABILITY

Available throughout the territory served by the Cooperative in accordance with the Cooperative's Rules and Regulations for Electric Service.

APPLICABILITY

Applicable to non-residential service for light and power purposes where monthly usage equals or exceeds 50 KW Demand and/or 10,000 KWH for two consecutive billing months. The minimum term of service under this rate schedule shall be the twelve months following the establishment of either or both of the above specified usages.

CHARACTER AND CONDITIONS OF SERVICE

Single phase or three phase, 60 Hertz, at the Cooperative's standard available voltage. Resale of service or standby service is not permitted hereunder.

CHARGES

Customer Charge.....	\$2.67 per day
Demand Charge.....	\$5.95 per kW
Energy Charge.....	9.05 cents per kWh

BILLING DEMAND

The monthly billing demand shall be the maximum 15-minute demand registered during the period for which the bill is rendered.

MINIMUM MONTHLY CHARGE

The minimum monthly charge for service shall be the highest of:

1. The stated minimum charge per contract or,
2. The daily Customer Charge times the number of days in the billing cycle plus a facilities use charge, if applicable.

Continued on Sheet No. 8.1

SCHEDULE GSD

Page 2 (Continued from Sheet No. 8.0)

SPECIAL PROVISIONS

1. *The Cooperative may require a written contract with the consumer.*
2. *Whenever a consumer increases his electrical load, thus requiring the Cooperative to change the existing facilities or install additional facilities for the specific use of the consumer; a new contract may be required.*
3. *The Cooperative will furnish service under this rate at the standard available voltage. Equipment to supply additional voltages or additional facilities for the use of the consumer shall be furnished and maintained by the consumer.*
4. *Primary Service*
As used here, the term "primary service" refers to the voltage at which the Cooperative distributes electrical energy from its Distribution Substation. In such cases, primary voltage metering will be provided by SECO.
 - A. *If a consumer desires to receive electrical service at the primary voltage available in the area, special approval of the Cooperative must be obtained.*
 - B. *An ownership point will be established by the Cooperative and the consumer shall install, own and maintain all electrical facilities beyond such point. For overhead service: The ownership point will be on the consumer's pole, at the line side of the consumer's fused disconnect switch. For underground service: The ownership point will be at the load side of the Cooperative's switchgear.*
 - C. *When service is rendered under this rate; delivered at primary voltage; and the point of delivery (ownership point) is at the customer's site the energy charge shall be reduced by 1% (one percent) of the energy charge.*
 - D. *When the consumer owns all distribution facilities beyond the Cooperative's 69 KV or greater substation and the primary metering point is located at the substation, the energy charge shall be reduced by .8 cents (eight mills) per KWH. This reduction is inclusive of the 1% (one percent) of the energy charge noted in C. above.*

Continued on Sheet No. 8.2

Effective October 1, 2007

Issued by: James P. Duncan, CEO & General Manager

SCHEDULE GSD

Page 3 (Continued from Sheet No. 8.1)

- E. The consumer may request the Cooperative to provide the required distribution facilities for the exclusive use of the consumer. The Cooperative, at its sole option, may furnish, install and maintain such facilities, charging the consumer for use thereof at a monthly rate of 1.567% of the installed cost of the facilities.*
- 5. Where the consumer maintains a power factor of less than 90 percent; the Cooperative may, at its option, determine demand as 90 percent of KVA.*
- 6. Provisions for Energy Pulse data:*
 - A. The Cooperative will provide energy pulses transmitted from its metering equipment to provide data to energy management systems.*
 - B. All access to Cooperative metering equipment shall be for Cooperative personnel only. The pulses will normally be provided from a separate junction box which will be for the Cooperative's access only.*
 - C. The Cooperative's billing for demand and energy charges shall be based on the Cooperative's meter reading and the applicable rate schedule(s).*
 - D. THE COOPERATIVE PROVIDES NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE PROVISION, CONTINUITY, OR ADEQUACY OF DATA OR OF THE EQUIPMENT RELATED THERETO.*
 - E. The consumer will contribute the full cost for the additional equipment required to provide the data pulse the fee for which will be a minimum of \$400. The customer shall also provide for equipment maintenance as it is required.*
 - F. An agreement must be executed and the consumer must make satisfactory arrangements for payment before installation can begin.*

WHOLESALE POWER COST ADJUSTMENT

The monthly charge for energy stated above is subject to adjustment according to the Wholesale Power Cost Adjustment Schedule.

TERMS OF PAYMENT

Bills are due and payable by the date shown on the bill. Bills not paid by the date shown on the bill are subject to a late payment fee of 1.5% of the amount of the bill, with a minimum fee of \$5.00.

GENERAL SERVICE DEMAND INTERRUPTIBLE SCHEDULE GSDI

AVAILABILITY

Available at the option of the consumer throughout the territory served by the Cooperative in accordance with the Cooperative's Rules and Regulations for Electric Service.

APPLICABILITY

To any consumer for light and power purposes for a minimum period of twelve (12) consecutive months where service may be interrupted by the Cooperative during any time period in which peak monthly territorial loading conditions are anticipated.

CHARACTER AND CONDITIONS OF SERVICE

Single phase or three phase, 60 Hertz, at the Cooperative's standard available voltage. Resale of service or standby service is not permitted hereunder.

CHARGES

Customer Charge	\$11.67 per day
Energy Charge	9.40 cents per kWh
Demand Charge	\$13.50 per kW

DETERMINATION OF MONTHLY DEMAND

The Monthly Demand Charge shall be applicable only in the event where the consumer fails to interrupt electric service on each and every occasion when requested to do so by the Cooperative. Under such circumstances, the monthly demand shall be determined as the maximum 15-minute demand registered by the Cooperative's time-of-day meter during any of the interruption periods within the billing month.

MINIMUM MONTHLY CHARGE

The minimum monthly charge for service shall be the higher of:

1. The stated minimum per contract or,
2. The daily Customer Charge times the number of days in the billing cycle plus a facilities use charge, if applicable.

Continued on No. Sheet 8.7

SCHEDULE GSDI

Page 2 (Continued from Sheet No. 8.6)

SPECIAL PROVISIONS

1. *The Cooperative may require a written contract with the consumer. The contract term shall not be less than one year.*
2. *Whenever a consumer increases his electrical load, thus requiring the Cooperative to change the existing facilities or install additional facilities for the specific use of the consumer; a new contract may be required.*
3. *The Cooperative will furnish service under this rate at the standard available voltage. Equipment to supply additional voltages or additional facilities for the use of the consumer shall be furnished and maintained by the consumer.*
4. *Primary Service*
As used here, the term "primary service" refers to the voltage at which the Cooperative distributes electrical energy from its Distribution Substation. In such cases, primary voltage metering will be provided by SECO.
 - A. *If a consumer desires to receive electrical service at the primary voltage available in the area, special approval of the Cooperative must be obtained.*
 - B. *An ownership point will be established by the Cooperative and the consumer shall install, own and maintain all electrical facilities beyond such point. For overhead service: The ownership point will be on the consumer's pole, at the line side of the consumer's fused disconnect switch. For underground service: The ownership point will be at the load side of the Cooperative's switchgear.*
 - C. *When service is rendered under this rate; delivered at primary voltage; and the point of delivery (ownership point) is at the customer's site the energy charge shall be reduced by 1% (one percent) of the energy charge.*
 - D. *When the consumer owns all distribution facilities beyond the Cooperative's 69 KV or greater substation and the primary metering point is located at the substation, the energy charge shall be reduced by .8 cents (eight mills) per KWH. This reduction is inclusive of the 1% (one percent) of the energy charge noted in C. above.*
 - E. *The consumer may request the Cooperative to provide the required distribution facilities for the exclusive use of the consumer. The Cooperative, at its sole option, may furnish, install and maintain such facilities, charging the consumer for use thereof at a monthly rate of 1.567% of the installed cost of the facilities.*

Continued on Sheet No. 8.8

Effective October 1, 2007

Issued by: James P. Duncan, CEO & General Manager

SCHEDULE GSDI

Page 3 (Continued from Sheet No. 8.7)

5. *Where the consumer maintains a power factor of less than 90 percent, the Cooperative may at its option compute the billing demand as follows:*

$$\text{Billed kW} = (.9 - \text{PF}) * \text{Metered kW} + \text{Metered kW}$$

6. *Provisions for Energy Pulse data:*

- A. *The Cooperative will provide energy pulses transmitted from its metering equipment to provide data to energy management systems.*
- B. *All access to Cooperative metering equipment shall be for Cooperative personnel only. The pulses will normally be provided from a separate junction box which will be for the Cooperative's access only.*
- C. *The Cooperative's billing for demand and energy charges shall be based on the Cooperative's meter reading and the applicable rate schedule(s).*
- D. *THE COOPERATIVE PROVIDES NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE PROVISION, CONTINUITY, OR ADEQUACY OF DATA OR OF THE EQUIPMENT RELATED THERETO.*
- E. *The consumer will contribute the full cost for the additional equipment required to provide the data pulse the fee for which will be a minimum of \$400. The customer shall also provide for equipment maintenance as it is required.*
- F. *An agreement must be executed and the consumer must make satisfactory arrangements for payment before installation can begin.*

WHOLESALE POWER COST ADJUSTMENT

The monthly charge for energy stated above is subject to adjustment according to the Wholesale Power Cost Adjustment Schedule.

TERMS OF PAYMENT

Bills are due and payable by the date shown on the bill. Bills not paid by the date shown on the bill are subject to a late payment fee of 1.5% of the amount of the bill, with a minimum fee of \$5.00.

Effective November 1, 2014

Issued by: James P. Duncan, CEO & General Manager

LARGE GENERAL SERVICE DEMAND - RATE SCHEDULE LGSD

AVAILABILITY

Available throughout the territory served by the Cooperative in accordance with the Cooperative's Rules and Regulations for Electric Service.

APPLICABILITY

Applicable to non-residential service for light and power purposes where monthly demand equals or exceeds 7500 KW. The minimum term of service under this rate schedule shall be the twelve months following the establishment of either or both of the above specified usages.

CHARACTER AND CONDITIONS OF SERVICE

Single phase or three phase, 60 Hertz, at the Cooperative's standard available voltage. Resale of service or standby service is not permitted hereunder.

CHARGES

Customer Charge.....	\$11.67 per day
Demand Charge.....	\$5.75 per kW
Energy Charge.....	8.489 cents per kWh

BILLING DEMAND

The monthly billing demand shall be the maximum 15-minute demand registered during the period for which the bill is rendered.

MINIMUM MONTHLY CHARGE

The minimum monthly charge for service shall be the highest of:

1. The stated minimum charge per contract or,
2. The daily Customer Charge times the number of days in the billing cycle plus a facilities use charge, if applicable.

Continued on Sheet No. 8.10

SCHEDULE LGSD

Page 2 (Continued from Sheet No. 8.9)

SPECIAL PROVISIONS

1. *The Cooperative may require a written contract with the consumer.*
2. *Whenever a consumer increases his electrical load, thus requiring the Cooperative to change the existing facilities or install additional facilities for the specific use of the consumer; a new contract may be required.*
3. *The Cooperative will furnish service under this rate at the standard available voltage. Equipment to supply additional voltages or additional facilities for the use of the consumer shall be furnished and maintained by the consumer.*
4. *Primary Service*
As used here, the term "primary service" refers to the voltage at which the Cooperative distributes electrical energy from its Distribution Substation. In such cases, primary voltage metering will be provided by SECO.
 - A. *If a consumer desires to receive electrical service at the primary voltage available in the area, special approval of the Cooperative must be obtained.*
 - B. *An ownership point will be established by the Cooperative and the consumer shall install, own and maintain all electrical facilities beyond such point. For overhead service: The ownership point will be on the consumer's pole, at the line side of the consumer's fused disconnect switch. For underground service: The ownership point will be at the load side of the Cooperative's switchgear.*
 - C. *When service is rendered under this rate; delivered at primary voltage; and the point of delivery (ownership point) is at the customer's site the energy charge shall be reduced by 1% (one percent) of the energy charge.*
 - D. *When the consumer owns all distribution facilities beyond the Cooperative's 69 KV or greater substation and the primary metering point is located at the substation, the energy charge shall be reduced by .8 cents (eight mills) per KWH. This reduction is inclusive of the 1% (one percent) of the energy charge noted in C. above.*

SCHEDULE LGSD

Page 3 (Continued from Sheet No. 8.10)

- E. The consumer may request the Cooperative to provide the required distribution facilities for the exclusive use of the consumer. The Cooperative, at its sole option, may furnish, install and maintain such facilities, charging the consumer for use thereof at a monthly rate of 1.567% of the installed cost of the facilities.*
- 5. Where the consumer maintains a power factor of less than 90 percent; the Cooperative may, at its option, determine demand as 90 percent of KVA.*
- 6. Provisions for Energy Pulse data:*
 - A. The Cooperative will provide energy pulses transmitted from its metering equipment to provide data to energy management systems.*
 - B. All access to Cooperative metering equipment shall be for Cooperative personnel only. The pulses will normally be provided from a separate junction box which will be for the Cooperative's access only.*
 - C. The Cooperative's billing for demand and energy charges shall be based on the Cooperative's meter reading and the applicable rate schedule(s).*
 - D. THE COOPERATIVE PROVIDES NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE PROVISION, CONTINUITY, OR ADEQUACY OF DATA OR OF THE EQUIPMENT RELATED THERETO.*
 - E. The consumer will contribute the full cost for the additional equipment required to provide the data pulse the fee for which will be a minimum of \$400. The customer shall also provide for equipment maintenance as it is required.*
 - F. An agreement must be executed and the consumer must make satisfactory arrangements for payment before installation can begin.*

WHOLESALE POWER COST ADJUSTMENT

The monthly charge for energy stated above is subject to adjustment according to the Wholesale Power Cost Adjustment Schedule.

TERMS OF PAYMENT

Bills are due and payable by the date shown on the bill. Bills not paid by the date shown on the bill are subject to a late payment fee of 1.5% of the amount of the bill, with a minimum fee of \$5.00.

Effective October 1, 2007

Issued by: James P. Duncan, CEO & General Manager

RESIDENTIAL SERVICE – SCHEDULE RS

AVAILABILITY

Available throughout the territory served by the Cooperative in accordance with the Cooperative's Rules and Regulations for Electric Service.

APPLICABILITY

Applicable to electric service used for domestic purposes in single or multiple family residences.

CHARACTER AND CONDITIONS OF SERVICE

Single phase, 60 Hertz, at the Cooperative's standard available voltage. Resale of service or standby service is not permitted hereunder.

LIMITATION OF SERVICE

Service to the electrical equipment for those participating in the Load Management Program may be interrupted at the option of the Company by means of load management devices installed on the customer's premises.

CHARGES

Customer Charge.....\$1.00 per day

Energy Charge

First 1,000 kWh..... 11.06 cents per kWh

Over 1,000 kWh..... 13.06 cents per kWh

MONTHLY MINIMUM CHARGE

The minimum monthly charge shall be the daily Customer Charge times the number of days in the billing cycle.

WHOLESALE POWER COST ADJUSTMENT

The monthly charges for energy stated above are subject to adjustment according to the Wholesale Power Cost Adjustment Schedule.

TERMS OF PAYMENT

Bills are due and payable by the date shown on the bill. Bills not paid by the date shown on the bill are subject to a late payment fee of 1.5% of the amount of the bill, with a minimum fee of \$5.00.

LIGHTING SERVICE - SCHEDULE LS

AVAILABILITY

Available throughout the territory served by the Cooperative in accordance with the Cooperative's Rules and Regulations for Electric Service.

APPLICABILITY

Applicable to any consumer for lighting of public or private thoroughfares, parking areas, homes, farms or businesses.

CHARACTER OF SERVICE

Dusk-to-dawn automatically controlled lighting installations. Installation of Cooperative owned lighting fixtures shall be limited to the Cooperative's existing poles except as noted under the Special Provisions of this rate schedule.

SCHEDULE OF RATES

Per Fixture:

<u>FIXTURE TYPE</u>	<u>WATTS</u>	<u>LUMENS</u>	<u>MONTHLY KWH</u>	<u>DAILY FIXTURE CHARGE</u>	<u>DAILY ENERGY CHARGE</u>
Small					
HP Sodium Vapor	100	7,500	42	\$0.19	\$0.11
Medium					
HP Sodium Vapor	250	24,750	104	\$0.25	\$0.26
Large					
HP Sodium Vapor	400	42,000	169	\$0.28	\$0.42

Continued on Sheet No. 10.4

Effective September 1, 2018
Issued by: James P. Duncan, CEO

SCHEDULE LS

Page 2 (Continued from Sheet No. 10.3)

SPECIAL PROVISIONS

1. The Cooperative may require a written contract with the consumer for all lighting applications as follows:
 - a. For the installation of 1 to 5 lights with overhead service, the minimum term shall be one year from the commencement of service and shall continue thereafter until terminated by either party by written notice sixty days prior to termination.
 - b. For lighting installations in excess of 5 overhead served lights and for all lighting systems served underground, the minimum term of the contract will be 5 years and shall continue thereafter until terminated by either party by written notice sixty days prior to termination. The contract must be executed by the owner, a homeowners association, or a governmental entity.
2. The Cooperative will maintain cooperative owned lighting installations.
3. If underground facilities are required, the consumer will pay the cost difference between the standard overhead installation and the estimated cost of the underground system.
4. The consumer will be required to pay the installation cost of additional poles for the purpose of mounting lights in conjunction with line extension policy.

Continued on Sheet 10.5

SCHEDULE LS

Page 3 (Continued from Sheet No. 10.4)

5. The Cooperative shall bill a daily fee per pole as follows:

Pole/Fixture Type	Daily Fee
Wood	\$ 0.07
Concrete	\$ 0.18
Fiberglass	\$ 0.18
Aluminum	\$ 1.00

6. A service charge of \$40.00 shall be required for the installation, relocation or repositioning of one or more outdoor lighting fixtures unless such installation, relocation or repositioning is performed by the Cooperative in activating a new service. In that circumstance the non-refundable fee for activating the new service shall be sufficient to cover the Cooperative's costs related to the outdoor lighting.
7. Unmetered member-owned lighting accounts will incur a \$1.00 monthly Billing Charge in addition to the Energy Charge and Wholesale Power Cost Adjustment.
8. The word "maintain" as it applies to lighting is defined as the replacement of bulbs, glassware and accessory equipment as determined by the Cooperative or upon the request of the consumer in the situation where service is interrupted. However, the consumer shall reimburse the Cooperative for the cost of such maintenance where it is required due to vandalism. Maintenance of lighting installations shall be performed during the regularly scheduled working hours of the Cooperative. However, servicing of public thoroughfare supply circuits shall be performed as necessary to assure continued reliability of the system.

WHOLESALE POWER COST ADJUSTMENT

The monthly charges for energy stated above are subject to adjustment according to the Wholesale Power Cost Adjustment Schedule.

TERMS OF PAYMENT

Bills are due and payable by the date shown on the bill. Bills not paid by the date shown on the bill are subject to a late payment fee of 1.5% of the amount of the bill, with a minimum fee of \$5.00.

Effective September 1, 2018
Issued by: James P. Duncan, CEO

CONTRACT SERVICE AGREEMENT RATE SCHEDULE "CSA"

OCT 03 2000

ACCOUNTING & FINANCE

AVAILABILITY

Throughout the territory served by the Cooperative, at the Cooperative's discretion and subject to the Cooperative's Rules and Regulations for Electric Service. Service under this schedule is contingent upon execution of a written agreement for electric service between the Cooperative and the consumer. Such agreement shall be considered a confidential document. The pricing, terms and provisions described in the agreement shall be made available for review by the Florida Public Service Commission and its staff only and such service shall be made under the confidentiality rules of the Commission.

APPLICABILITY

Applicable to new consumers with at least 500 kW of connected load or existing consumers who add at least 500 kW of new connected load, where the consumer has a verifiable and economically viable alternative to electrical service from the Cooperative. This rate Schedule CSA is only applicable to that portion of the existing consumer's load which is being added.

Also applicable to existing consumers with loads of at least 500 kW where the consumer has a verifiable and economically viable alternative to continued electrical service from the Cooperative. This rate schedule is only applicable to that portion of the existing consumer's load which is being evaluated for service by sources of power other than the Cooperative.

The Cooperative, in its judgment, will determine whether the consumer has a realistic potential to reduce or avoid electrical purchases from the Cooperative in deference to an alternative source of power, based upon information provided. The Cooperative reserves the right to deny service hereunder if the consumer fails to demonstrate that, in the absence of service under this rate schedule, the consumer would fulfill its energy requirements from sources other than the Cooperative. The Cooperative also reserves the right to deny service hereunder if the Cooperative determines that such service could have a detrimental impact on the other members of the Cooperative.

(Continued on Sheet No. 11.1)

Effective August 1, 2000

Issued by: James P. Duncan, CEO & General Manager

RATE SCHEDULE "CSA"

Page 2 (Continued from Sheet No. 11.0)

CHARACTER OF SERVICE

As set forth in the agreement for electric service between the Cooperative and the consumer.

MONTHLY RATE

The Monthly Rate shall be the sum of the Wholesale Power Cost Charge, the Power Delivery Charge, the Consumer Charge and the Margin Adder.

DETERMINATION OF WHOLESALE POWER COST CHARGE

The sum of all charges billed to the Cooperative by its wholesale power supplier for service rendered hereunder to the consumer. Such charges shall represent the specific and allocable amounts billed to the Cooperative for service to the consumer for the corresponding month. In no event shall such amount be less than the incremental cost of power purchased by the Cooperative from its wholesale supplier.

DETERMINATION OF POWER DELIVERY CHARGE

The Power Delivery Charge shall be determined on a case-by-case basis. In no event shall the Power Delivery Charge be less than the amount determined by applying a monthly carrying charge to the total investment (including any net replacements made from time to time) in electric plant facilities installed by the Cooperative for providing service herein. The total investment will include both specific and reasonably allocable electric plant facilities as determined by the Cooperative. The monthly carrying charge shall be based upon current investment-related costs of providing service such as operations and maintenance expense, property taxes, depreciation and interest expenses, and a contribution to margins as determined by the Cooperative. The Power Delivery Charge may also include additional charges, if necessary, for the consumer to provide a contribution to system fixed costs.

(Continued on Sheet No. 11.2)

Effective November 1, 2014

Issued by: James P. Duncan, CEO & General Manager

RATE SCHEDULE "CSA"

Page 3 (Continued from Sheet No. 11.1)

DETERMINATION OF CONSUMER CHARGE

The Consumer Charge shall reflect the cost incurred by the Cooperative to provide monthly metering and billing service and energy services to the consumer. It shall be determined on a case-by-case basis and specified in the agreement for electric service between the Cooperative and the consumer.

DETERMINATION OF MARGIN ADDER

The Margin Adder shall be determined on a case-by-case basis.

MINIMUM MONTHLY CHARGE

The minimum monthly charge shall be such charge specified in the agreement for service between the Cooperative and the consumer.

TERMS OF PAYMENT

The terms of payment shall be specified in the agreement for service between the Cooperative and the consumer.

TAXES

The consumer shall pay any sales, use, franchise, or other tax now or hereafter applicable to the service rendered hereunder or imposed on the Cooperative as a result of such service; provided, however, that no such tax shall be charged if the consumer has furnished to the Cooperative evidence of the Cooperative's exemption from liability for such tax.

(Continued on Sheet No. 11.3)

Effective November 1, 2014

Issued by: James P. Duncan, CEO & General Manager

RECEIVED

SEP 08 2000

Original Sheet No. 11.3

ACCOUNTING & FINANCE

RATE SCHEDULE "CSA"

Page 4 (Continued from Sheet No. 11.2)

TERM OF SERVICE

Service hereunder shall be effective to each consumer based on the individual contract term set forth in the written agreement for service between the Cooperative and the consumer. Such agreement may include a facilities abandonment provision to ensure recovery of the total investment described in the above DETERMINATION OF POWER DELIVERY CHARGE and recovery of any applicable wholesale power supplier abandonment charge or ratchet effect. The facilities abandonment charge shall include an amount equal to the unrecovered investment less salvage value, net of the cost of removal. The investment in electric plant facilities used for determining the facilities abandonment charge will be based upon actual construction costs, though a cost estimate may be contained in the agreement. If the actual cost is less than the estimate, the consumer will be given the benefit of such variance by a reduction in the facilities abandonment charge. If the actual cost is greater than the estimate, the facilities abandonment charge will be increased. As set forth in the agreement, the facilities abandonment charge may be a lump-sum amount, or may be provided by a schedule of payments made during a specified term and reflecting an appropriate interest rate.

Following termination of service hereunder, the consumer's load shall be billed under the Cooperative's rate schedule applicable to consumers of similar load size and type, as approved by the Florida Public Service Commission.

Effective August 1, 2000

Issued by: James P. Duncan, CEO & General Manager

WHOLESALE POWER COST ADJUSTMENT - SCHEDULE PCA

APPLICABILITY

This adjustment applies to all rate schedules excluding Schedule CSA.

CALCULATION

The applicable rates shall be increased or decreased by multiplying the kWh sold by a factor (WPCA) calculated in accordance with the formula shown below.

$$WPCA = \{(PC_T - PC_S) / (E_T - E_S)\} - B$$

WHERE:

WPCA = Wholesale Power Cost Adjustment (expressed in \$ per kWh)

PC_T = Total system power cost defined as total purchased power cost from Seminole.

PC_S = Incremental purchased power cost associated with consumers served under Schedule CSA.

E_T = Total system kWh sold

E_S = kWh sold attributable to consumers served under Schedule CSA.

B = Base cost of power which shall equal 0.095.

For the purposes of calculating the WPCA, the Cooperative will seek to levelize the WPCA factor over the course of a calendar year based on actual monthly data (for prior months during the calendar year) and estimated monthly data (for remaining months during the calendar year).

As necessary, the Board of Trustees shall adjust the WPCA factor to properly track and recover wholesale power cost. Further, the Cooperative will track the over and under collection of power cost associated with this clause and any differences at the end of the calendar year shall be collected or credited throughout the following year.

MISCELLANEOUS CHARGE AMOUNTS

MEMBERSHIP FEE: \$5.00 for each membership. One member may have more than one electrical connection (account) but only one membership fee is required.

RESIDENTIAL DEPOSIT: Two times the average monthly bill for the service address during the 12 preceding occupied months.

- NOTES:**
- 1) *A residential member with a good payment record at one active account is not required to have a deposit for any additional residential accounts.*
 - 2) *A deposit two times the average monthly bill for the service address during the 12 preceding occupied months will be required when a member establishes a poor payment record at the current location or at a prior location or has a poor credit rating from a SECO approved reporting agency.*
 - 3) *If the service address is new and has not had service before, a deposit will be required of \$300.00 or \$0.20 per square foot of conditioned space, whichever is greater.*

NON-RESIDENTIAL DEPOSITS: Two times the average billing for the service location during the preceding 12 months of normal use.

- NOTES:**
- 1) *If the service address is new and has not had service before, the deposit will be an amount equal to 2 months estimated usage based on an estimated load factor for that type of account.*

EXISTING SERVICE – CONNECT OR RECONNECT FEE:

Monday - Friday, excluding Holidays	8:00 A.M. - 5:00 P.M.	\$ 40.00
Outside these days/hours		\$100.00

NEW SERVICE – CONNECT FEE:

Monday - Friday, excluding Holidays	8:00 A.M. - 5:00 P.M.	\$110.00
-------------------------------------	-----------------------	----------

AUTOMATED METER PROGRAM OPT OUT:

Members wishing to opt out of automated metering will be required to sign an opt-out agreement (attached - 16.02). The charge represents the cost of dispatching an employee to read the member's meter when other meters in a billing cycle are being read by automated metering. There are no additional charges for the installation of the analog meter.

Monday – Friday, excluding Holidays	8:00 AM – 5:00 PM	\$40.00
-------------------------------------	-------------------	---------

CHANGE OF ACCOUNT FEE: \$15 for each change of account where reconnect of existing service or field visit is not required.

DELINQUENT ACCOUNT RECONNECT FEE:

Monday - Friday, excluding Holidays	8:00 A.M. - 5:00 P.M.	\$ 40.00
Outside these days/hours		\$100.00

(Continued on Sheet No. 16.01)

MISCELLANEOUS CHARGE AMOUNTS

Page 2 (Continued from Sheet No. 16.0)

RETURNED CHECKS:

Current Returned Check Table

Check Amount	Fee
Less than or equal to \$50	\$25
Greater than \$50 but less than or equal to \$300	\$30
Greater than \$300 but less than or equal to \$800	\$40
Greater than \$800	5% of check amount

METER TEST: Each meter test (over once per year)

\$ 50.00

UNAUTHORIZED RECONNECT, METER TAMPERING or CURRENT DIVERSION: \$250 plus the applicable reconnect fee, plus expenses, plus the estimated cost of lost revenue.

UNDERGROUND DIFFERENTIAL: Members requesting underground electric distribution facilities will pay the calculated differential installed cost between the underground facilities and the suitable overhead facilities.

DORMANT FACILITIES CHARGE: 75% of monthly customer charge for applicable rate schedule payable annually 12 months in advance.

SURGE PROTECTION LEASE PROGRAM: Service is provided for a minimum of 12 months.

Installation charge (less than 300 amp): \$ 25.00

Installation charge (300 amp or greater): \$100.00

Monthly service fee: \$ 5.95

PAYMENT ARRANGEMENT CHARGE: \$5.00 processing fee for all payment arrangements made outside of the Cooperative's Interactive Voice Response system

FEE for EXCESS MONTHLY PAYMENTS ON PREPAID METERING RATE: \$3.00 transaction fee for all payments received in excess of 5 payments during a calendar month.

**Automated Metering Opt-Out Agreement**

Customer Name

SECO Account Number	

Terms & Conditions

I agree that I am a named, authorized person on the customer account number entered above. Further, I am indicating that I want to opt out of the Automated Metering Program, am opting for the analog mechanical meter alternative, and am aware of the ongoing monthly charge of \$40.00, which will be added to my energy statement. By opting out, I understand that all Automated Metering enabled services, including energy alerts and energy usage graphs, among others, will no longer be available to me, and I thus agree to forfeit these services and benefits.

LINE EXTENSION CHARGES

PURPOSE:

The purpose of this policy is to define a uniform method by which Contributions In Aid of Construction (CIAC) will be computed for member/applicant whose electrical service requirements necessitate extension of the Cooperative's distribution facilities.

POLICY:

A. APPLICABILITY

This policy shall apply to all member/applicants in all rate classifications who request a design of new or revised services or extensions of the Cooperative's distribution facilities after the effective date of this policy.

B. ENGINEERING SERVICE FEE

- 1. When a member/applicant requests new or revised services, the initial consultation is free. If the member/applicant then requests a design/layout, an engineering service fee in the amount of \$100 will be collected prior to the design of said facilities.*
- 2. If constructed, the engineering service fee will be applied towards the CIAC. If not constructed, the fee will be retained by SECO.*

C. CIAC FOR OVERHEAD FACILITIES

- 1. For members/applicants in rate classes that do not include separately computed demand charges, the CIAC shall be calculated as follows:*

$$\text{CIAC} = \text{CF} - 4[(\text{kWh}_a \times \text{E}_s)]$$

- 2. For members/applicants in rate classes that include both per kWh energy charges and per kW demand charges, the CIAC shall be calculated as follows:*

$$\text{CIAC} = \text{CF} - 4[(\text{kWh}_a \times \text{E}_s)] + 4\text{kW}_a[(\text{D}_s - (\text{D}_p \times \text{DF}))]$$

CF represents installed cost of new poles and conductors and appropriate fixtures to provide service, excluding transformer, service drops, and meters

kWh_a represents customer's annual expected kWh usage

E_s represents difference between SECO's current retail energy charge per kWh and current wholesale energy charge per kWh including PCA charges

kW_a represents customer's cumulative monthly demand for a one-year period

D_s represents SECO's current monthly demand charge per kW

D_p represents SECO's wholesale demand expense per kW

DF represents the average demand coincidence factor of the rate class of the new member

(Continued on Sheet No. 16.2)

LINE EXTENSION CHARGES

Page 2 (Continued from Sheet No. 16.1)

D. CIAC FOR UNDERGROUND FACILITIES

1. When a member/applicant requests underground electric facilities, the member/applicant shall pay SECO the full cost of facilities to be installed, including underground feeder backbone and/or additional facilities.
2. The CIAC for the cost differential between the overhead and underground facilities is non-refundable. The remaining CIAC balance is refundable on a prorated basis. The proration will be straight-line over 48 months based on the individual additions of permanent member accounts in a quarter. At the end of 48 months, any balance remaining will be retained by SECO. The Cooperative will refund the prorated collections to the member/applicant (builder/developer) who paid the cost of the facilities installation.

E. CIAC FOR SERVICE AT PRIMARY VOLTAGE OR TRANSMISSION VOLTAGE

Members/applicants requesting service at the distribution voltage level or transmission voltage level shall pay a CIAC based upon the cost to serve them less an appropriate credit for taking delivery at the higher voltage level.

F. LINE EXTENSIONS WITH MORE THAN ONE MEMBER/APPLICANT

In cases where two or more members/applicants are to be served by a line extension, the Cooperative will prorate the CIAC over the number of members/applicants expected to be served within a four-year period by the line extension.

G. OUTDOOR LIGHTING SYSTEMS

Member/applicants requesting the installation of outdoor lighting systems in residential and commercial developments shall pay a CIAC based on the total cost to provide such service.

H. DEFINITIONS

1. *Cooperative*

Sumter Electric Cooperative, Inc.

(Continued on Sheet No. 16.3)

LINE EXTENSION CHARGES

Page 3 (Continued from Sheet No. 16.2)

2. *Cost of Facilities*

The costs for poles, conductor etc. used in the formulas may be either the Cooperative's estimated or actual costs of constructing or modifying the required facilities.

3. *Distribution Facilities*

All electrical equipment of the Cooperative required to deliver electricity to homes and businesses.

4. *Member/Applicant*

The member/applicant is the person or entity seeking extension of distribution facilities by the Cooperative.

5. *Non-fuel Energy Charge*

The Cooperative's total energy charge less purchase power.

6. *Overhead*

Pertains to distribution facilities which are installed above ground on supporting poles.

7. *Sales and Revenue Estimates*

Estimates of revenue, KWH sales and KW demand used in the formulas in this policy will be based upon the most current data available.

8. *Underground*

Pertains to distribution facilities which are installed below ground or on the ground.

Net Metering

Net Metering of Customer-Owned Renewable Generation

For customers with a renewable generating system that have executed an interconnection agreement with the Cooperative and are eligible for net metering as defined by FPSC Rule 25-6.065, however limited in size to Tier 1 (10 kW or less), Tier 2 (greater than 10 kW but less than or equal to 100 kW) and Tier 3 (greater than 100 kW but not to exceed 1,000 kW). The system shall be rated at no more than 1,000 kilowatts (kW) alternating current power output and is primarily intended to offset part or all of the customer's current electrical requirements. The rating of the system cannot exceed 90% of the customer's utility distribution service rating.

- A. Metering equipment may be installed by the Cooperative that will be capable of measuring the difference between the kilowatt hours (kWh) delivered to the customer and kWh generated by the customer and delivered to the Cooperative's electric grid. There will be no additional charge to the customer for this metering equipment.*
- B. Monthly meter readings will be taken by the Cooperative on the same cycle as required by the customer's applicable rate schedule in accordance with the Cooperative's normal billing practices.*
- C. The Cooperative will charge the customer for any kWh used by the customer from the Cooperative's electric grid for the entire billing cycle in accordance with the otherwise applicable rate schedule.*
- D. During any billing cycle, excess kWh generated by the customer's renewable generation system that is delivered to the Cooperative's electric grid will be credited to the customer at a rate equal to the base cost of power shown in Schedule PCA plus the applicable WPCA factor for the month. Should the kWh generated by the customer's renewable generation system result in a credit to the customer for the billing period, the excess will be credited to the customer's account.*
- E. Excess kWh credits will only be applied to the service and meter behind which the renewable generation system is located. The credit will not be applied to any other accounts of the customer.*
- F. Regardless of whether excess kWh is delivered to the Cooperative's electric grid, the customer will be required to pay any charges as determined by the customer's otherwise applicable rate schedule.*

**Interconnection Agreement
For Customer-owned Renewable Generation Systems
(1-1,000 kW)**

This Interconnection Agreement for Customer-Owned Renewable Generation Systems ("Interconnection Agreement") is made this ____ day of _____ 20____, by and between SECO Energy ("Cooperative") and _____ ("the Customer") located at _____, Florida, referred to herein individually as a "Party" and collectively as the "Parties."

RECITALS

Whereas, a Renewable Generation System ("RGS") is an electric generating system that uses one or more of the following fuels or energy sources: hydrogen, biomass, solar energy, geothermal energy, wind energy, ocean energy, waste heat, or hydroelectric power as defined in Section 377.803, Florida Statutes, rated at no more than 1,000 kilowatts (kW) alternating current (AC) power output and is primarily intended to offset part or all of a Customer's current electricity requirements.

Whereas, the Customer has requested to interconnect its Renewable Generation System of ____ kW (AC) to the Cooperative's electrical service grid at the Customer's presently metered location; and

Whereas, the Cooperative and Seminole Electric Cooperative, Inc. ("Seminole") have entered into that certain Wholesale Power Contract ("WPC"), effective as of July 30, 1975, which, as amended, provides, among other things, that the Cooperative may allow net metering for renewable energy resources which are located on a customer's premises; and

Whereas, the Cooperative and Seminole have entered into that certain Net Metering Agreement, which provides the standard interconnection requirements for a customer's RGS installation; and

Whereas, the Customer acknowledges the complexity and integrated nature of the Cooperative's electric system, to which the Customer desires interconnection and with which Customer desires parallel operation; and

Whereas, the Customer acknowledges the important safety issues and financial consequences on the Cooperative's electric system that could result from any deviation by the Customer from the requirements of this Agreement.

Now, Therefore, in consideration of the mutual covenants and agreements herein set forth, the Parties do hereby agree as follows:

- 1) In order to commence the process for interconnection, the Customer shall provide the Cooperative a completed "Application Form", attached hereto as Attachment 1 and incorporated herein.

- 2) The Customer agrees to provide the Cooperative with written certification that the RGS installation has been inspected by the local code official who has certified that the installation was permitted and has been approved and has met all electrical and mechanical requirements. Such certification shall be delivered to Cooperative prior to the operation of the RGS.
- 3) The Customer shall, prior to operation of the RGS, provide equipment specifications to the Cooperative identifying and certifying in writing that the RGS, inverters and associated equipment design, and installation and operation adhere to IEEE-1547 Standards, UL-1741 Standards, the National Electric Code, and, if applicable, has been approved by the Florida Solar Energy Center (FSEC Std 203-10).
- 4) The Customer is responsible for the inspection, maintenance, and testing in accordance with the manufacturer's instructions and applicable codes, standards, and regulations to insure that the RGS and associated equipment are operated correctly and safely.
- 5) The Customer agrees to permit the Cooperative and/or Seminole, if it should so choose, to inspect the RGS and its component equipment and the documents necessary to ensure compliance with various sections of this Interconnection Agreement both before and after the RGS goes into service and to witness the initial testing of the RGS equipment and protective apparatus. The Cooperative shall provide the Customer with as much notice as reasonably practicable, either in writing, e-mail, facsimile or by phone, as to when the Cooperative may conduct inspection or document review, and the Customer shall provide the Cooperative with as much notice as reasonably practicable regarding the testing of the RGS equipment and protective apparatus. Upon reasonable notice, or at any time without notice in the event of an emergency or hazardous condition, Customer agrees to provide the Cooperative access to the Customer's premises for any reasonable purpose in connection with the performance of the obligations imposed by this Interconnection Agreement. The Customer shall notify the Cooperative at least ten (10) days prior to the in-service date of the RGS to provide sufficient notice for the Cooperative to be able to be present, if it so chooses, when the RGS is placed in service. Seminole shall have the same rights and duties of inspection as the Cooperative; however, nothing herein obligates the Cooperative or Seminole to inspect, and the failure of the Cooperative and/or Seminole to inspect or, upon inspection, to detect a problem or deficiency shall not transfer responsibility to Cooperative or Seminole nor relieve Customer of its duties hereunder.
- 6) The Customer is responsible for protecting the RGS, inverters, protection devices, and other system components from the normal and abnormal conditions and operations that occur on the Cooperative's electrical system in delivering and restoring system power. The Customer certifies that the RGS equipment includes a utility-interactive inverter or interconnection system equipment that ceases to interconnect with the utility upon a loss of utility power. The inverter shall be considered certified for interconnected operation if it has been submitted by a manufacturer to a nationally-recognized testing laboratory (NRTL) to comply with UL 1741. The NRTL shall be approved by the Occupational Safety & Health Administration (OSHA).

- 7) The Customer shall not energize the Cooperative's system when the Cooperative's system is de-energized. There shall be no intentional islanding, as described in IEEE 1547, between the Customer's and the Cooperative's systems.
- 8) For an RGS with a capability of ten (10) kW or less, the Customer shall not be required to maintain General Liability Insurance for Personal and Property Damage, and for an RGS with a capability of greater than ten (10) kW, the Customer shall provide and maintain not less than one million dollars (\$1,000,000) of General Liability Insurance for Personal and Property Damage. Proof of said insurance, if applicable, shall be provided by the Customer and attached to this Interconnection Agreement, and all policy renewals shall be provided to the Cooperative.
- 9) The Customer shall, at the Customer's expense, install and maintain a manual disconnect switch to provide a separation point between the AC power output of the RGS and any Customer facilities connected to the Cooperative's electrical system. The manual disconnect switch shall be mounted separately from the meter socket and shall be readily accessible at all times to the Cooperative and shall be capable of being locked in the open position by the Cooperative. The Cooperative may open and lock the switch, isolating the RGS from the Cooperative's electrical service grid without prior notice to the Customer. To the extent practical, the Cooperative will attempt to notify the Customer of its intent to disconnect the RGS from the Cooperative's electrical service grid, but shall have no liability for failure to do so.
- 10) "Gross power rating" ("GPR") means the manufacturer's AC nameplate generating capacity of the RGS that will be interconnected to and operate in parallel with the Cooperative's distribution facilities. For inverter-based systems, the GPR shall be calculated by multiplying the total installed DC nameplate generating capacity by .85 in order to account for losses during the conversion from DC to AC. It is the Customer's responsibility to notify the Cooperative of any change to the GPR of the RGS by submitting a new application for interconnection specifying the modifications at least thirty (30) days prior to making the modifications. If such modifications are approved by the Cooperative, an amendment to this Interconnection Agreement shall be executed by the Parties and the Customer recognizes and agrees that an increase in GPR to greater than ten (10) kW may impose additional requirements on the Customer.
- 11) The RGS must have a GPR that does not exceed ninety percent (90%) of the Customer's utility distribution service rating at the Customer's location. If the GPR does exceed that ninety percent (90%) limit, the Customer shall be responsible to pay the cost of upgrades for that distribution service to accommodate the GPR capacity and to ensure the ninety percent (90%) threshold is not breached.
- 12) The Cooperative will furnish, install, own and maintain metering equipment to measure kilowatt-hours (kWh) of energy and, if applicable, the kW of demand and time of use of said energy and demand. The Customer's service associated with the RGS will be metered at a single metering point, and the metering equipment shall be capable of measuring the net energy delivered by the Cooperative to the Customer and the net energy delivered by the Customer to the Cooperative on a monthly basis. The

Customer agrees to provide safe and reasonable access to the premises for installation of this equipment and its future maintenance or removal.

- 13) Once the Cooperative has received the Customer's written documentation that the requirements of this Interconnection Agreement have been met and the correct operation of the manual switch has been demonstrated to Cooperative, the Cooperative will, within ten (10) business days, notify that parallel operation of the RGS may commence.
- 14) The Customer shall indemnify, hold harmless and defend the Cooperative and Seminole from and against any and all liability, proceedings, suits, cost or expense for loss, damage or injury to persons or property in any way directly or indirectly connected with, or growing out of operation of the RGS, except in those cases where loss occurs due to the grossly negligent actions of the Cooperative.
- 15) The Cooperative has the right, at the Customer's expense, to disconnect the RGS at any time. This may result from but is not limited to:
 - a) Cooperative and/or Seminole's system maintenance, operation and emergency operations;
 - b) Hazardous conditions existing on the Cooperative's and/or transmission provider's system due to the operation of the RGS generating or protective equipment as determined by the Cooperative or Seminole;
 - c) Adverse electrical effects on the electrical equipment of the Cooperative's other electric customers as determined by the Cooperative;
 - d) Failure by the Customer to adhere to the terms of this Interconnection Agreement;
 - e) Failure by Customer to pay sums due to the Cooperative for electric service or any other reason.
- 16) On the termination of this Interconnection Agreement, the Cooperative, at the Customer's expense, shall open and padlock the manual disconnect switch and remove any additional Cooperative equipment associated with the provision of net metering service. At the Customer's expense, the Customer agrees to permanently isolate the RGS and associated equipment from the Cooperative's electric service grid. The Customer shall notify the Cooperative within ten (10) working days that the disconnect procedure has been completed.
- 17) The Parties agree that the sole and proper jurisdiction and venue for any legal action brought to enforce this Interconnection Agreement or to address the rights and obligations of this Interconnection Agreement shall be the State Court of the proper jurisdiction located within the State of Florida.
- 18) In the event of any dispute hereunder for any action to interpret or enforce this

Interconnection Agreement, the prevailing Party shall be entitled to recover its reasonable costs, fees and expenses, including, but not limited to, witness fees, expert fees, consultant fees, attorney, paralegal and legal assistant fees, costs and expenses and other professional fees, costs and expenses whether suit be brought or not, and whether in settlement, in any declaratory action, at trial or on appeal.

- 19) Any written notice required or appropriate hereunder shall be deemed properly made, given to, or served on the Party to which it is directed, when sent by United States certified mail, Return Receipt Requested, addressed as follows:

If to Customer:

If to Cooperative:

*SECO Energy
Attn: Engineering Department - RGS
P.O. Box 301
Sumterville, Florida 33585-0301*

Notice of any change in any of the above addresses shall be deemed in the manner specified in this section.

- 21) Other Special Provisions:

The Parties acknowledge that this Interconnection Agreement is subject to the RGS Agreement and the Wholesale Power Contract, each entered into between Cooperative and Seminole Electric Cooperative, Inc. This Interconnection Agreement is intended to be consistent with the RGS Agreement and the Wholesale Power Contract, but in the event that any of the provisions of this Interconnection Agreement shall be held or otherwise determined to be in conflict with either the RGS Agreement or the Wholesale Power Contract, the parties agree that the RGS Agreement or Wholesale Power Contract, respectively, shall prevail.

- 22) This Interconnection Agreement, along with the Application Form, when duly executed, constitutes the entire agreement between the Parties with respect to matters herein contained.

(THE SIGNATURE PAGE FOLLOWS)

In Witness Whereof, the Parties hereto have caused this Interconnection Agreement to be duly executed in triplicate the day and year first above written.

James P. Duncan, CEO

SUMTER ELECTRIC COOPERATIVE, INC.
PREPAID METERING RATE SCHEDULE (PMRS)

AVAILABILITY:

Available throughout the territory served by Sumter Electric Cooperative, Inc.

APPLICABILITY:

As an optional rate for establishments classed as residential. Customers, who voluntarily elect to be served under this tariff, must remain on this tariff for a minimum of 12 months.

LIMITATION:

Subject to all of the rules and regulations of this tariff, general rules and regulations of the utility. Standby or resale service not permitted.

Service under this Schedule is not permitted to customers who designate a third party to receive notification of any pending termination notices. The Cooperative shall install, maintain and own all Prepaid Metering equipment.

CHARGES:

Customer Charge\$ 1.14 per day
Energy Charge:
 First 1,000 kWh11.06 cents per kWh
 Over 1,000 kWh13.06 cents per kWh

MINIMUM CHARGE:

The minimum daily charge shall be the Customer Charge.

TERMS OF PAYMENT:

Payment for service shall be made in advance ("Advance Purchases"). At such time as the value of the service consumed equals the value of Advanced Purchases, electric service is subject to immediate disconnection from the Cooperative by the Prepaid Metering system until additional purchases by the customer are made. Should the electric service be disconnected by the prepaid metering system due to customer's electrical usage having consumed the entire value of the advanced purchases, the customer charge will continue to accumulate on customer's account and will be deducted from the customer's next additional purchase. Disconnection for reasons of non-payment does not release customer from their obligation to pay the daily Customer Charge. Under the Prepaid Metering Schedule, if the outstanding account remains disconnected for 7 business days, the Cooperative will consider the account closed.

(Continued on Sheet No. 18.1)

PREPAID METERING RATE SCHEDULE (PMRS)

Page 2 (Continued from Sheet No. 18.0)

In the event the customer has indebtedness with the Cooperative for service previously provided, the Cooperative may allow, at its sole option, for customer to pay the indebtedness or portions of the indebtedness by deducting a portion or all of the indebtedness as a percentage of each prepaid service purchase made thereafter until the indebtedness is satisfied.

In the event the customer has an electric service deposit with the Cooperative at the time customer elects to take service under this Schedule, an Advanced Purchase credit will be issued for any positive balance. Balance is defined as the deposit less all outstanding indebtedness.

Customer shall receive a receipt of payment at each prepaid service purchase excluding prepaid service purchases made through an automated telephone system.

TAX ADJUSTMENTS:

Amount computed at the above monthly rate, as adjusted by application of the monthly Power Cost Adjustment, shall be subject to any applicable taxes, assessments, fees, and/or surcharges legally imposed by any governmental authority.

WHOLESALE POWER COST ADJUSTMENT:

The monthly charges for energy stated above are subject to adjustment according to the Power Cost Adjustment Schedule.

Effective March 1, 2013

Issued by: James P. Duncan, CEO & General Manager

IDLE AND DORMANT SERVICES – SCHEDULE DS

PURPOSE

To implement a method to reduce the costs of facilities serving inactive accounts. The costs may be due to, but not limited to, maintenance of poles/hardware, removal of vegetation, or safety and clearance issues. SECO Energy (SECO) reserves the right to remove its facilities where non-revenue producing services exist.

APPLICABILITY

This policy shall apply to property owners to allow them the opportunity to choose to have SECO not permanently retire the facilities serving an Idle Service (as defined below) for future use. This will also provide a mechanism for SECO to recover a portion of the continuing overhead, maintenance, and tax costs related thereto. Non-use of service for 12 months shall make the line and equipment serving the account subject to removal.

SPECIAL PROVISIONS

With respect to Idle and Dormant Services, the following shall apply:

- 1. "Idle Service" indicates any service where lines and equipment exist but the account is inactive for a period of 12 months.*
- 2. "Dormant Status" refers to facilities in the field that will be maintained like all other facilities but may not be energized or have a meter installed.*
- 3. At the discretion of SECO, a certified letter will be mailed to the property owner notifying him or her of the Idle Service condition. The property owner may elect to not have the Idle Service retired by SECO and apply for Dormant Status. If no response is received by the deadline specified in the certified letter, the facilities serving the Idle Service may be removed without further notification.*
- 4. If election is made by the property owner to retain the Idle Service, the property owner must be or become an active member of SECO and apply for Dormant Status. In addition, a monthly Dormant Facilities Charge will be billed as per the established rate schedule of SECO. SECO has the right to remove the meter and the transformer. The monthly Dormant Facilities Charge is subject to periodic review by the Board of Trustees.*
- 5. The member with the Dormant Status service will be billed under the normal billing policy of SECO. If the account becomes delinquent and subject to non-payment disconnect, the service will be scheduled for removal without further notification.*
- 6. If an Idle Service is removed and service is requested in the future at that location, the request will be treated as a new service. All costs associated shall be calculated in accordance with Tariff Sheet No. 16.1 (Line Extension Charges) in effect at the time of the request.*

IDLE AND DORMANT SERVICES – SCHEDULE DS

Page 2 (Continued from Sheet No. 19.0)

7. *Connecting or reconnecting any service and later disconnecting the service to avoid the monthly fee will subject the service to the same status as an Idle Service. In all cases, a reconnect charge will apply as per the applicable rate schedule.*

MONTHLY CHARGES

Refer to Tariff Sheet No. 16.01 (Miscellaneous Charge Amounts).

TERMS OF PAYMENT

Bills are due and payable by the date shown on the bill. Bills not paid by the date shown on the bill are subject to a late payment fee of 1.5% of the amount of the bill, with a minimum fee of \$5.00.
